INTRODUCING BOND BRIDGE

Bond Home App

Use Bond Home app to control everything from your phone

We are excited to announce our partnership with Bond Bridge. With Bond users can connect not only shades but fireplaces, ceiling fans and other devices supported by growing list of Bond compatible products.

About Bond Bridge: It was created and designed for Pro Installers who demand to take the experience of using a Smart Bridge to the next level. It is an easier, faster, and more powerful way to connect RF controlled devices in a smart home automation portfolio.

- It requires no additional wiring or installation
- Use Bond Home app to control your CBM shades and other devices
- Bond works as a bridge between WiFi and the remote's recorded signals
- Be able to control everything even from outside your home
- Bond Bridge can control up to 30 devices (Pro version can control 50 devices)
- Can control CBM and Somfy powered shades at the same time
- Fully compatible with Amazon Alexa, Google Home, Control4, ELAN, Savant & many more...

Contact us at sales@cblind.ca for samples and pricing.
